NAWS Environmental Scan and Motion

We will be looking for GSR feedback from their homegroups by next Area Service on April 9th for an Environmental Scan from NAWS. There is an online survey and NAWS has asked for delegate input and I need your help so I can be sure to give OUR conscience. The Environmental Scan is attached to the minutes. This is an opportunity for the Central Atlantic Region to provide input up front, directly influencing the NAWS Strategic Plan by providing data they can consider as part of our environmental scan. This scan reflects NAW's best efforts to capture trends and issues- both within and outside of the Fellowship-that affect NA. You may call/text Noreen 951-660-8445 if you have any questions.
